Investor Presentation

June 2022

Disclaimer

This presentation contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as “may,” “will,” “expect,” “anticipate,” “aim,” “estimate,” “intend,” “plan,” “believe,” “potential,” “continue,” “is/are likely to” or other similar expressions. Such statements are based upon management’s current expectations and current market and operating conditions, and relate to events that involve known or unknown risks, uncertainties and other factors, all of which are difficult to predict and many of which are beyond the Company’s control, which may cause the Company’s actual results, performance or achievements to differ materially from those in the forward-looking statements. Further information regarding these and other risks, uncertainties or factors is included in the Company’s filings with the U.S. Securities and Exchange Commission. The Company does not undertake any obligation to update any forward-looking statement as a result of new information, future events or otherwise, except as required under law.

In addition to U.S. GAAP financials, this presentation includes adjusted net income, a Non-GAAP financial measure. This Non-GAAP financial measure is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. The Non-GAAP measure has limitations as an analytical tool and you should not consider it in isolation or as a substitute for an analysis of the Company’s results under U.S. GAAP. There are a number of limitations related to the use of the Non-GAAP financial measure versus its nearest GAAP equivalent. First, adjusted net income is not a substitute for net income or other consolidated statements of operations data prepared in accordance with U.S. GAAP. Second, other companies may calculate such Non-GAAP financial measure differently or may use other measures to evaluate their performance, all of which could reduce the usefulness of the Non-GAAP financial measure as a tool for comparison. Finally, the Non-GAAP financial measure does not reflect the impact of share-based compensation expenses, which have been and may continue to be incurred in the Company’s business. See the Appendix for reconciliation between adjusted net income to the most directly comparable financial measures calculated and presented in accordance with U.S. GAAP, which is net income.

Company Overview

An aerial architectural rendering of a modern city. The scene features a large, multi-tiered stadium with a curved roof, situated near a river. In the background, there are several high-rise buildings and a range of mountains under a clear sky. The foreground shows a road with cars and a sandy beach area. The entire image is overlaid with a semi-transparent orange filter.
